EUGLOH News March 2024

Let's see what is new at EUGLOH!

Spring has arrived and our community has additional news to share!

Let's see what EUGLOH has to offer this spring!

Our **internal** EUGLOH **newsletters** arrive biweekly, this time featuring the latest events of December and plans for the new year. 📅

Call for guest speakers! - Webinar on chronic pain

U.Porto is developing a **Webinar on Chronic Pain** as an Extra Activity in the **2nd semester of 2024**.

As part of the continuous effort to co-develop courses and events, the organizers sent out a **call for interest for Guest Speakers** in the following subjects:

- a) Intestinal Inflammatory Diseases
- b) Rheumatology and neuropathic pain
- c) Pharmacology of analgesic drugs

The webinar will be comprised of **5 after work-sessions of 1h30 minutes (18h00 CET)** and possibly take place between the **23rd and the 27th of September 2024**.

Please share this opportunity within any interested parties and get in touch with Ms. Ana Nogal Dias (abdias@reit.up.pt) in case of any manifestation of interest by the **31st of March**.

Let's prepare for the Olympics together!

The walking challenge of the EUGLOH community keeps rolling!

In relation to the Olympic Games this summer, the EUGLOH Alliance launches four different challenges to promote physical wellbeing. **The second challenge starts on 11th March 2024**, and for top-performing students, a blended intensive program focusing on health, physical activity, and the Olympic Games will be offered in Paris, France, in September. 🥳

The first quarter of a year is the period of new beginnings and resolutions revolving around healthy habits. On top of that, 2024 promises to become an exciting year as the **XXXIII. Summer Olympics** will be held in **Paris** this summer.

In the spirit of the Olympics, the EUGLOH community invites all citizens of the partner universities to start 2024 actively and to join the four health-related challenges that will guide us through the first half of the year, up until June. The first challenge successfully closed in February. The next one will start on **11th March** and is open for those who didn't participate in the first part as well.

👉 The participants shall join **teams of 5** and can change teams between challenges. International teams are highly encouraged.

👉 The goal of the second challenge is to inspire participants to **walk as much as they can** during this period. In order to encourage that, the app tracks their performance on a virtual map where they have to walk to partner universities.

How does it work? 🤔

1 After they downloaded a special app named **Kiplin** (equally available on Android and iOS), participants should create an account using the access code EUGLOH2024 and join the EUGLOH challenge on the Home Page or under Games.

2 From that on, the app tracks the number of steps taken or the time spent with walking every day marking progress on a virtual map. The app also provides team challenges, interesting articles, quizzes and chatrooms, so participants can encourage each other on being consistent, can learn and share their ideas.

📍 For top-performing students, a blended intensive program focusing on health, physical activity, and the Olympic Games will be offered in Paris, France, in September. Besides, all participants meeting all four challenges will gain knowledge, a healthier daily routine and a certificate.

Get ready to move! 🏃🏃

PhD Opportunities within EUGLOH

Let your students know! 🌟😊

There are numerous Doctoral Positions available with EUGLOH this year, let's see who is offering and what!

The EUGLOH consortium is quite strong when it comes to research. Needless to say that each partner university offers high-quality research in many different areas and doctoral schools.

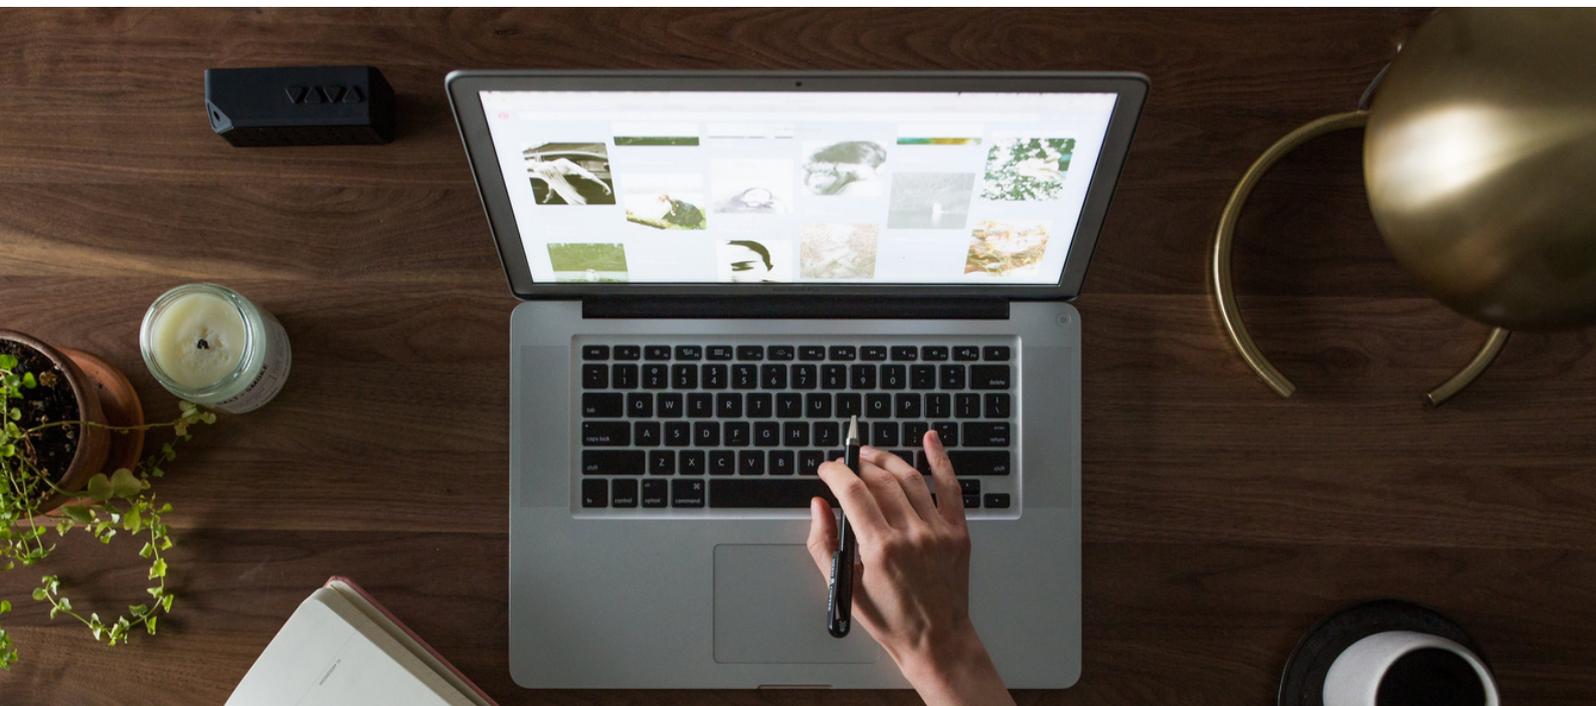

Please take a look at the latest list of available PhD programs at EUGLOH partner universities and suggest a relevant program to your students!

You can find the full list of opportunities here: [PhD OPPORTUNITIES WITHIN EUGLOH](#)

What do the Doctorate Programs offer?

- [Université Paris-Saclay](#) offers a special PhD position in photochemistry and solar energy conversion
- [Ludwig-Maximilians-Universität München](#)
- [University of Alcalá](#)
- [Universität Hamburg](#)
- [University of Novi Sad](#)
- [Uit The Arctic University of Norway](#)
- [University of Szeged](#)

Please make sure that interested students receive word of the opportunities. 😊

Upcoming Events
