

SUGGESTED STUDY PLAN FOR ERASMUS STUDENTS - MEDICINE - 2021/2022 (9001AK_N_2013)

Heads of the Departments

International students planning to take part in the Erasmus program at the University of Szeged, Faculty of Medicine are kindly asked to follow the guidelines below before they begin composing their Erasmus learning agreements.

- **Select the courses you wish to take from a single year only — do not take courses from multiple years.**
- **Select courses from a single semester only if you are visiting for only one semester.**
- **Since most courses are made up of two components, both of which are required to be completed in order to be awarded the credit points assigned to the course, please include both components (lecture and practice/seminar) in your learning agreement. Make sure that you use the exact title of the course.**
- **Select compulsory courses only — do not choose 'compulsory elective subjects' or 'elective subjects', as they are likely to be held at the same time as your compulsory courses and/or might not be available in every semester.**
- **Include every course's course code in your learning agreement, because it will help the University identify the course more easily.**
