students of dental medicine

Dear students,

This is to inform you that in case you wish to carry out any of your summer practices **in or outside the EU** in the second semester of the academic year of 2016/2017 it is allowed only with the Dean's exceptional permission and the following administrative steps are required to be done:

- you should submit a letter of acceptance issued by an accredited clinic/hospital by **May 25, 2017**. If you miss the deadline, you will be required to pay a late fee.
- The letter of acceptance you submit must include the following information: your name, the name and address of the institution, the accreditation number of the institution (meaning that it is recognized and approved by the country it's located in), the exact period of the practice, the full and legible name of your supervisor.
- The final permission will be based on the Dean's and the concerned summer practice supervisor's decision by **June 5, 2017**.
- If you are granted permission to do the summer practice at the preferred clinic you must also prove the completion of your tasks required for the practice by submitting the evaluation form (by the end of the registration period of the following fall semester). The form must be filled in by the hospital/clinic.
- Those who fail to submit the above mentioned documents or will not be granted permission to carry out the summer practice outside the Faculty will be obligated to complete the course at the Faculty of Dentistry.

Please note that summer practices are criteria subject, so their completion is just as obligatory as any other compulsory subject's is.

Students having begun their studies **in or after the academic year 2012/2013** do not have to pay a fee for completing the summer practice.

Students having begun their studies before the academic year 2012/2013 have to pay

- a 500 USD fee for the nursing practice**
- a 600 USD fee for the odontotechnology practice**
- a 600 USD fee for the oral surgery summer practice**
- a 800 USD fee for the basic treatment in dental medicine practice if they are carrying out their practice at the Faculty of Dentistry of the University of Szeged.**

Associate Professor Kinga Turzó Ph.D.
