

## Instructions on selecting subjects

International students planning to take part in the Erasmus program at the University of Szeged, Albert Szent-Györgyi Medical School, are required to follow the guidelines below before they begin composing their Erasmus learning agreements.

- Select the subjects you wish to take from a single year — taking subjects from multiple years could result in clash of the classes.
- Select subjects from a single semester only if you are visiting for only one semester.
- Since most subjects are made up of two components, both of which are required to be completed in order to be awarded the credit points assigned to the subjects, please include both components (lecture and practice/seminar) in your learning agreement. Make sure that you use the exact title of the subject.
- Select compulsory subjects only — ‘compulsory elective subjects’ or ‘elective subjects’, as they are likely to be held at the same time as your compulsory subjects and/or might not be available every semester.
- Include every subject’s course code in your learning agreement, because it will help the University identify the subject more easily.
