

Greetings,

I am sending you this message to invite you to the amazing iMed Conference in Lisbon, Portugal - that's going to be held at the Centro Cultural de Belém on the 17th, 18th, 19th and 20th of September.

This congress is completely organised by Medical Students and we are inviting you to be a part of this year's conference. As always the iMed Conference besides bringing to Portugal Award-Winning Scientists and Doctors, it allows the students to learn more about the subjects from the actual people who have developed them,

This year's conference will have two Nobel Laureates and a lot more...We'll have two competitions that will give the winning students two 15,000€ grants so they can develop their projects. The Clinical Mind Competition will have as a judge, Professor Lisa Sanders, the medical consultant for House, MD.

If you believe this conference is in the interest of your students, we'd love to send you some posters and flyers with the information about the conference.

We will also have travel packages specially made for students/doctors travelling from all around the world.

Thank you so much for your attention,
Hoping to hear from you soon.
Joana
