

Step into science and become a Szent-Györgyi Student

in Budapest, Szeged, Debrecen or Pécs!

Are you interested in biomedical or life science research fields or already planning your future in this direction?

Would you like to be mentored by a recognized researcher who guides your career path professionally even from the very beginning?

Would you enjoy meeting Nobel laureates and internationally recognized researchers several times a year?

Would you like to be part of a truly special and diverse university community?

Are you ambitious enough to become the next Nobel laureate?

National Academy of Scientist Education

The Academy's goal is to support students committed to biomedical and life science areas from their first year, help their scientific interests flourish and also provide opportunities for them to participate in the highest-level research projects.

Why choose the path of a Szent-Györgyi student?

- Continuous scientific training and research opportunities in the laboratories of the country's most outstanding specialists
- Monthly scholarship
- Cultural, community-building and health-promoting programs

What we expect from our students

- Commitment towards biomedical and human life science fields along with natural science research areas
- Dedication and perseverance toward the researcher lifestyle

Important information

Entry to the program is possible through an application that is announced every year in August. The Academy's University training program is currently available at:

- University of Debrecen
- Eötvös Loránd University Faculty of Science
- University of Pécs
- Semmelweis University
- University of Szeged
- HUN-REN Institute of Experimental Medicine
- HUN-REN Biological Research Centre
- HUN-REN Research Centre for Natural Sciences

Who can apply?

Only full-time, active status 1st-2nd year students and higher-year active TDK (Student Research Society) students are able to participate in the program from the following faculties*:

- Faculty of Medicine
- Faculty of Dentistry
- Faculty of Pharmacy
- Faculty of Science (e.g., biology, chemistry majors)

Information about the application process, admission dates and all other details are available on the Academy's website (www.edu-sci.org), as well as in your faculty's newsletters, website and social media pages.

**The list was made only for informational purposes so please check each institution's application announcement for up-to-date information.*

Sounds good?
