

Requirements in Microbiology for 3rd year medical students

Academic year 2018/2019.

Spring term

1. Participation in lectures and practices

Attendance at lectures will be considered in the end-semester examination (positive consideration, + 3 points). Participation in practices is **compulsory**. In case of absence from more than 25% (for any reason) the head of the department **will refuse to sign** the book of study certificates. Less than 25% absences can be justified by doctor's certificate, etc. (see Study Rules).

2. Mid-semester examination

There will be one written examination covering lectures as well as practices. Once you may **repeat** the test. The result of the MTO will be considered in the end-semester examination:

- student, who has reached more than 80% on the MTO get + 3 points in the end-semester exam.

Date of the MTO: 6th of November 2018 7-8 am

3. End-semester examination

The examination (test: simple and multiple choice, analysis of relation) will be based on the study material provided during the semester (lectures, practices) and on the textbooks (Murray et al., **Medical Microbiology**, Elsevier, Mosby; 8th Edition, 2016; Greenwood et al., **Medical Microbiology**; Churchill, Livingstone, Elsevier; 18th Edition, 2012; **Practical classes in medical microbiology and immunology** edited by Rozália Pusztai, SZOTE, 2002).
