Website: <http://www.med.u-szeged.hu/kulfoldi-hallgatok/final-year/final-year>

2

General Information

In order to register for the 6th year and to be able to start your internship year you are required to submit or present the following documents after finishing all your fifth year examinations:

- the registration form including the schedule of the time and place of your planned clinical rotations for the 1st semester of the 6th year (July 8, 2024 to February 7, 2025), also indicating whether you would like to take the exam in the given subject during the first semester (*the registration form will be sent to you in June by email*)
- copy of your **valid residence permit/registration card** (scanned copy sent by email is acceptable)

Please pay your immediate attention to your obligation of holding a **valid medical fitness certificate** issued by the occupational doctor of the university, because without that you might not be able to start your practice at the clinics of the University of Szeged. In case they have expired, **you** must contact the occupational doctor (Dr. Andrea Kiss, +3662 455052, workhealth2.model@med.u-szeged.hu) to have it renewed.

It is also advisable to hold a **valid accident and liability insurance**. You are covered when doing a practice at the clinics of the university and at other Hungarian hospitals, however, no liability insurance is provided by the university for practices outside Hungary.

Acceptance letters which you have already collected must be uploaded into CooSpace at the time of registration for the 6th year. The templates of the acceptance letters are available at the following website: <http://www.med.u-szeged.hu/kulfoldi-hallgatok/final-year/final-year> The deadline of uploading them is the Monday before the beginning of the practice concerned. In case of spending a practice at the departments of the University of Szeged which is organized by the Foreign Students' Secretariat (i.e. you are registered for them in the rotation schedule), no acceptance letter is necessary to be submitted. If you organize a practice yourself at a clinic of our university, you must obtain a letter of acceptance from the clinic and upload it into CooSpace before starting the practice.

1. Internships

When organizing your internships outside Szeged please contact **teaching/university hospitals** (clinics and hospitals affiliated with medical schools/universities that train medical students or hospitals that have a licence to accommodate medical students for practices). You can see the names of some hospitals abroad on *page 7* where many of our students go to complete their practices.

If you are thinking of doing some practices at a Hungarian hospital outside Szeged on the following website you can find the list of the Hungarian accredited hospitals (although the website is in Hungarian it is not very difficult to use):

<https://reny.hu>

When you open the page, you can find the hospital the following way: Szakképzés/Akkreditált képzőhelyek/Szakképzőhelyek, a list of hospitals will appear then. If you write the name of the city where you would like to do your practice in "Település" and/or choose the subject in "Szakirány", the list of hospitals which accept medical students for their practices will appear. Please always check the expiry date of the accreditation of a certain hospital at the end of the line. By clicking on the icon in the 3rd column (which looks like a printer) the contact details of the hospital will be revealed. Please note

that the site might sometimes not work properly on your mobile phone. If that happens please check the site on your laptop.

When contacting hospitals outside Szeged please do that via email instead of going there in person as the heads of department and doctors are normally very busy looking after patients and might not be able to talk to you when you go there.

1.1. Internships spent at the clinics of the University of Szeged

Practices at the clinics of the University are scheduled through the Foreign Students' Secretariat, but in case you would like to do your practice during a period which is not offered in the rotation schedule, you may contact the department concerned and ask if they can accept you for the requested period. If the whole practice is spent in Szeged, the final examination in the subject can be completed during the **last week of the practice** taking into account the examination schedule of the department concerned.

1.2. Internships spent outside the University of Szeged

In case you would like to complete your practices in hospitals outside the University of Szeged, a letter of acceptance from the hospital(s) must be uploaded into Coospace before starting the practice.

After a practice outside the University of Szeged, the final examination can only be taken after the accomplishment of the whole practice.

Practices can be split, but the final examination can only be taken when the whole practice (all the necessary weeks/hours of the practice) has been completed.

Officially students work 6 hours/day, 5 days/week. A practice week always starts on a Monday and finishes on a Friday. At some hospitals outside Hungary the compulsory number of the practice hours can be completed in a shorter period of time. For example, by working 8 hours/day, 5 days/week a 4-week (120-hour) practice can be completed in 3 weeks instead of 4. When filling in the evaluation sheet about a practice like that the actual (i.e. shorter) period must be written and in the line „Number of hours completed” the total number of hours must be written. A practice period can be shortened by working more than 6 hours per day only with the permission of your practice supervisor or head of department. The compulsory number of practice hours must be completed even when the practice period is shortened. Students are not allowed to do more than 8 hours of practice daily.

Please note that at Hungarian hospitals it is not allowed to shorten a practice by doing more than 6 hours/day.

2. Evaluation forms

The accomplishment of a practice can be proved with:

- an **original** filled in evaluation sheet (the forms are available at the following website: <http://www.med.u-szeged.hu/kulfoldi-hallgatok/final-year/final-year>). **Please make sure that the completion of all tasks are certified (i.e. signed and stamped) in the forms.**
- **in case no English-language stamp (or no stamp at all) is at the disposal of the hospital, individual letters composed by the clinic/hospital on their own letterhead must be submitted in addition to your evaluation form.**
- **if you split your practice, separate evaluation sheets must be filled out about the two (or more) parts of the practice**

The evaluation form **WILL NOT BE** accepted in the following cases:

- **if it is not the original document but a photocopy or a scanned version sent by email**
- **if an overlapping exists with another practice**
- **if any information is missing from the form**
- **if the period of the practice is not given correctly**
- **if the completion of the tasks are not certified by the signature and the stamp of your supervisor.**

Please note that in case you do your practice in a country where it is not the Latin alphabet that is in use (e.g. Korea, Japan, Israel, Iran etc.) and/or there is no English-language stamp at the disposal of the hospital, a separate letter must be written on the hospital's letterhead by your supervisor to certify that you have completed the practice there, which must be submitted together with the evaluation sheet.

3. Examinations

After completing a practice you have to sit for the final examination. If the whole practice is spent in Szeged, the final examination in the subject can be completed in the last week of the practice taking into account the examination schedule of the department concerned. **However, in case of spending your practice outside Szeged, there is no possibility to take the examination during the last week of the practice period.**

Examinations can only be taken on the days scheduled by the respective department. Exam registration is conducted through the Neptun system. **The precondition of taking the examinations is having submitted the original practice evaluation sheet at the Foreign Students' Secretariat 1 day before the examination date at the latest.** In case the exam is scheduled for a Monday, the evaluation sheet must be submitted on the Friday before the day of the exam, at the latest. Those who fail to submit the practice evaluation sheet before the deadline described above will not be allowed to take the exam on that day.

Students are advised to submit the evaluation sheet immediately after the end of the practice to prevent cases of losing the document or forgetting to submit it in time to become eligible to take the examination.

Students are also recommended to keep a scanned copy of the evaluation sheets before they are submitted in case they need them when applying for jobs/trainings/exams abroad after graduation.

The examinations are taken in person at the university clinics.

In case of an unsuccessful examination, the earliest the retake examination may take place is the third calendar day following the unsuccessful examination. No extra weeks of practice must be completed before the retake examination.

If you are not satisfied with the result of your exam you may retake it to improve the grade. If you would like to do that you must inform our office about your intention to improve your grade and then we will register you for the exam on Neptun. A mark can only be improved in the same semester when it was obtained. There are two opportunities to retake successful exams in a semester. The result of such a retake examination will qualify as the final grade, even if the retake grade is not to the student's advantage. In case such a retake examination results in a failed grade it is possible to take a repeated retake examination.

3

Some teaching hospitals abroad

You may only complete your 6th year practices in hospitals or clinics which are affiliated with medical universities or hold a licence to accommodate medical students for their clinical rotations. Below you can see a list of hospitals outside Hungary where our students often go to complete clinical practices.

ISRAEL

E. Wolfson Medical Center

Hillel-Yaffe Medical Center (Hadera)

Hadassah Ein Karem Medical Center (Jerusalem)

Shaare Zedek Medical Center (Jerusalem)

Sheba Medical Center (Tel-Hashomer)

Shamir Medical Center /Assaf Harofeh/ (Beer Yaakov)

Length of practices

Subjects	Practice	Credits	Form of examination
Internal Medicine <i>Incl. 1 week of General Practice* (optional)</i>	9 weeks (270 hrs)	10	Comprehensive Examination
Oncological Module in Internal Medicine	1 week (30 hrs)	0	Signature
Surgery**	6 weeks (180 hrs)	9	Comprehensive Examination
Oncological Module in Surgery	1 week (30 hrs)	0	Signature
Traumatology	1 week (30 hrs)	0	Signature
Emergency Medicine	1 week (30 hrs)	0	Signature
Paediatrics <i>Incl. 1 week of District Paediatric Consultation* (optional)</i>	8 weeks (240 hrs)	8	Comprehensive Examination
Obstetrics and Gynaecology	4 weeks (120 hrs)	5	Comprehensive Examination
Oncological Module in Obstetrics and Gynecology	1 week (30 hrs)	0	Signature
Neurology	4 weeks (120 hrs)	4	Comprehensive Examination
Psychiatry	4 weeks (120 hrs)	4	Comprehensive Examination
Total	40 weeks		
Total credits obtained for the exams		40	

(during your practices you work 6 hours/day, 5 days/week, 30 hours/week)

*In some countries (e.g. UK, Germany) GPs accept students for their 1-week GP/Child District practice. In case you would like to do your GP/Child District practice separately from the rest of your internal medicine/pediatrics practice, please ask the GP to sign the acceptance letter for you just like in case of any other practice. On our website you can find an evaluation sheet template for GP/Child District practices, please have that filled in upon completion of the practice.

**** Five weeks out of the compulsory 6 weeks of the surgery practice (at least 150 hours) must be completed in the field of general surgery. One week of the practice may be completed in a different field of surgery e.g. pediatric surgery, neurosurgery, plastic surgery etc, about which a separate evaluation sheet must be issued.**

WHEN YOU HAVE COMPLETED A PRACTICE PLEASE SUBMIT THE ORIGINAL EVALUATION SHEET AT OUR OFFICE AS SOON AS POSSIBLE TO AVOID PROBLEMS OF NOT BEING ABLE TO SUBMIT THE SHEET IN TIME BEFORE THE EXAM OR EVEN LOSING IT.

Thesis

At the following website you can read about the thesis regulations and requirements at the Albert Szent-Györgyi Medical School:

<http://www.med.u-szeged.hu/download.php?docID=122876>

State Board Examination

- It is a form of examination that concludes the student's higher education. For those students who have attended training at the Albert Szent-Györgyi Medical School of the University of Szeged, the State Board Examination demands demonstration by the student that the knowledge and skills and their application, are appropriate to the levels required by the medical profession.
- In all branches of study the final examination is separated from the thesis defence and is taken in those subjects (topics) determined in the Curriculum.
- It consists of three components: written, oral and practical exam. The thesis defence, although it usually happens in March or April, is also part of the state board exam thus its mark is calculated in the result of the state board examination.
- Permission for a student to take the examination is granted on condition that the student has passed all examinations required by the Curriculum, completed all study requirements and was awarded the Pre-Degree Certificate (Abszolutórium).
- State Board Examination should be taken within two years following award of the Pre-Degree Certificate (i.e. following the completion of all the study and examination requirements of the university)

State Board Examination test

You can prepare for the written exam by visiting the following website where you can find the preparatory material and requirements of the exam:

<http://finalexam.eu>

After registration, you can access the tests and mock exams. The written exam of the state board examination will be compiled using the questions of the tests on the above website.

State Board Examination Board

- The oral and practical parts of the State Board Examination is to be taken in the presence of a board comprising an uneven number of members. Following the recommendation of the Faculty Board, the chairman and the members of the board of examiners are appointed by the Dean to serve for a period of one year.
- The board shall be comprised of teachers, readers, senior professors, senior readers, and guest lecturers of the University of Szeged. It shall also have at least one independent specialist member who is not employed by the university.
- The candidate's performance is marked with a 1-5 grade. In the event of a deadlock that cannot be resolved by voting, the chairman's decision shall be final.
- A record sheet of the examination will be kept. The chairman of the final examination board will report directly to the Dean on the examination.

Results of State Board Examination

- The final result of the state board examination will be calculated on equal basis of marks obtained from the written test, the patient examination, the oral exam and the thesis defence.
- A State Board Examination will be failed where one or more of the examination components has been failed. When a final examination is repeated it will only be those failed components that are re-examined.
- Repeat examinations may only be taken during the next scheduled State Board Examination period.
- Where a candidate is unable to take a final examination within two years following the award of the graduation certificate, the Rector, on recommendation by the Dean, may grant permission for the final examination to be taken on one occasion.

8

Diploma, graduation ceremony

- At the conclusion of the State Board Examination, the candidate will be awarded a Doctor of Medicine degree at the Albert Szent-Györgyi Medical School. The degree certificate will be signed by the Dean.
- You can read about how the result of the diploma is calculated on the following link:
<https://www.med.u-szeged.hu/kulfoldi-hallgatok/final-year/diploma-average-albert>
- Doctor of Medicine diplomas are rated as follows:
 "Summa cum laude" (4.51 - 5.00)
 "Cum laude" (3.51 - 4.50)
 "Rite" (2.00 - 3.50)
- The degree certificate (diploma) is issued in Hungarian and English languages. The decorated diploma (only for decoration purposes) is issued in Hungarian and Latin languages. Both documents are received by the students at the graduation ceremony within 30 calendar days after the successful state board examination.
- At the graduation ceremony students take the Hippocratic oath to swear to perform their duties as doctors of medicine faithfully. The text of the oath can be found on our website:
<https://www.med.u-szeged.hu/kulfoldi-hallgatok/final-year/final-year>

9

Fees

1. Practices:

The tuition fee is counted on the basis of the academic year when the student started their studies at the Albert Szent-Györgyi Medical School of the University of Szeged.

Paying the obligatory tuition fee in the first semester of the 6th year entitles students to complete half of the practices (i.e. 20 weeks) at the University of Szeged and its affiliated hospitals without additional costs.

Should the student accomplish more than 20 weeks of practice at the clinics of the University of Szeged and affiliated hospitals during the whole 6th year (i.e. during the 1st and 2nd semesters), a fee will be calculated on pro rata basis in the second semester, when the student has submitted all the evaluation sheets about the practices (usually in April or May).

The tuition fee for the 1st semester of the 6th year must be paid before taking the first examination or – in case you do not take any examinations before September 30 - by September 30, 2024 at the latest. Please note that the tuition fee must be credited to the university's account by the above deadlines.

Please note that only those students are eligible to sit for the State Board Examination who do not have any outstanding debts toward the university. The deadline to pay for any debts are **5 working days** before the first part of the State Board Examination.

2. Procedural fees

Diploma, diploma case, tassel, rent of the gown, hat* (for all graduands)	5000 HUF
---	----------

* subject to change

The procedural fees must be paid via Neptun shortly before the state board examination.

3. Account numbers of the university that tuition fees must be transferred to:

Bank transfers in **USD** have to be made to the following bank account:

University of Szeged
IBAN: HU94-1000-4012-1000-8016-0022-0332
Bank name: Hungarian State Treasury
(correspondent: Hungarian National Bank, SWIFT code: MANEHUHB)
Bank address: H-1054 Budapest, Hold u. 4.
Swift code: HUSTHUHB

Bank transfers in **EUR** have to be made to the following bank account:

University of Szeged
IBAN: HU79-10004885-10002010-00120335
Bank name: Hungarian State Treasury
(correspondent: Hungarian National Bank, SWIFT code: MANEHUHB)
Bank address: H-1054 Budapest, Hold u. 4.
Swift code: HUSTHUHB

There is no possibility to pay in cash.

When transferring your tuition fee please take into consideration the fact that your bank and intermediary bank(s) charge you commission for the transactions, which must be borne by the ordering party (i.e. by you).

10

Topics for the comprehensive examinations

The departments announce the topic lists for the comprehensive examinations on CooSpace. If you cannot find them there please contact the department directly to request the topic list.

THESIS
